

Leading Positive Results™

THE WORKSHOP FOR CREATING A MORE POSITIVE AND PRODUCTIVE WORKPLACE AND LIFESTYLE

CAUGHT BETWEEN TWO WORLDS,

Spark was exactly like every other frog in his pond with one notable exception. Spark emerges from a tadpole with a slight but noticeable orange spot. And this orange spot makes Spark feel uncomfortably different. What's more, Spark begins to make a disconcerting observation; when Spark does things that make him feel better (and produce more positive results) the orange spots increase. Spark is left with a difficult decision; be normal, which makes him less conspicuous, or continue doing those things that make him happier, more productive and... *more orange*.

So begins the parable of *The Orange Frog*, a disarming tale that serves as the starting point for the workshop **Leading Positive Results™**. By the end of the story, readers see and feel pressures they recognize in their day-to-day life. They also witness the most remarkable transformation that takes place when Spark finally chooses to adopt an orange way of life. Not only does his own personal satisfaction and productivity increase, these same results slowly start to ripple out to the other frogs in the pond.

The story and the workshop are based on the groundbreaking findings contained in the book **The Happiness Advantage by Harvard Professor Shawn Achor.*

LEADING POSITIVE RESULTS™ WORKSHOP

Using this story as a backdrop, participants explore their own work place and identify similar pressures, similar characters and similar threats. They are then challenged to develop habits and strategies to resolve these pressures allowing them to follow Spark's journey and develop strategies to ripple positive results throughout their teams and departments.

This workshop offers a different experience when compared to other training programs. This approach is purposeful: *the workshop attempts to break down barriers – real and perceived – to facilitate a transformation for leaders, teams, and ultimately, organizations.*

TRAINING PROGRAMS DO NOT CHANGE BEHAVIOR.

People change behavior, and while organizational change management approaches usually fail, **people change management approaches can succeed**. The learning design of this workshop requires your active participation and offers an experiential approach to learning. This design provides an opportunity to learn from the author and his research as well as the opportunity to learn from other practitioners in the workshop and have fun.

THE RESEARCH

Research concludes being positive results in more resilient, adaptable and successful people and organizations.

This same research also is clear on positivity being contagious. *We need to move from information to **transformation!***

The workshop will cover key principles for creating a more positive and productive workplace and lifestyle.

TWO PRIMARY WORKSHOP OBJECTIVES:

Individual Adaptability (self leadership):

Begin a Personal Transformation towards a more positive mindset and more productive and adaptable work life.

Group Adaptability (team leadership):

Initiate and support Transformation by cascading the effects of Positivity and Adaptability to your team.
